2. There was a brief discussion of the placement of [redacted] who entered on duty early this week in OSA. [redacted] was reminded that if there does not seem to be mutually effective utilization to be made of [redacted] there are other DD/R assignments where his qualifications are needed. 25X1 25X1

3. Colonel Giller reminded the group that COMOR has had a requirement for the operational use of [redacted] for some-time and that COMOR is not currently happy with the lack of action on this score. He is anxious that we not be found delinquent in our own responsibility, and accordingly urged OSA to actively pursue this matter and similarly OMD insofar as technical responsibility may be involved. 25X1 25X1

5. [redacted] reported that our proposed SPG requirements went well at the S&T Personnel Advisory Committee meeting and further that the Office of Personnel is making a concerted effort during the next few months to recruit priority hard-to-get categories of personnel. In connection with this effort he had made arrangement for [redacted] to spend the day of Wednesday, 17 July, in the DD/R for the purpose of becoming specifically acquainted with our activities, needs, etc. [redacted] is a recently acquired full time S&T recruiter with engineering background and many years of experience in industry. [redacted] requested that each office be prepared to discuss its particular needs, provide the kind of briefing, leads, advice, etc., that would be of most help to [redacted] in his efforts to find some of the people we most urgently need. Either he or [redacted] will be in touch with each of the offices for the purpose of developing specific schedules, arrangements, etc.
